TECHNICAL SKILLS

Languages: Javascript, HTML, CSS

Skills and Tools: Git, GitHub, MongoDB, Bootstrap, Node.js, VS Code, Visual Studio, Auth0, Express server, Axios, RestFul-APIs, React dev-tools, SQL,

PROJECTS

Odd Duck, August 2022 - bedlamingoliath.github.io/odd-duck/

- I created a site where the user selected items generate random images , upon clicking the image, with user's data saved via local storage.-
- built with HTML, CSS, and JavaScript.

Project WDYWWE, July 2022 - <https://github.com/what-do-you-wanna-eat>

- A restaurant app containing restaurant suggestions based on the user's dietary restrictions allowing the user to store favorites onto a separate page via local storage.
- Built with HTML, CSS, and Javascript. I utilized several key features of each of these technologies in order to create a clean and smooth user experience.

Can-of-books, October 2022 - <https://can-of-books-front-end-301.netlify.app>

- A digital "bookshelf" allowing the user to track books they would like to or have read with data persisting to a database
- built with Javascript, React, Express, Bootstrap, Axios, MongoDB and Mongoose.

Space - explorers, November 2022 - <https://spacex-plorer.netlify.app/>

- A web application where authorized user's are able to query the night sky to learn what is viewable from a provided location.
- Built with Javascript, React, Express, Axios, MongoDB, Mongoose, and Auth0

EDUCATION

Code Fellows - Seattle, WA

Certificate - Advanced Software Development - April 2023

EXPERIENCE

Trader Joe's, Lynnwood WA, Wine Section lead, May 2008 – Present

- Stocked, ordered, and maintained the wine section while helping customers make informed buying decisions.
- Built the Shelves and organized the wine section in order of region, price, and variety.
- Diligently received and checked in wine orders bringing the wine section a 99.9% inventory score.
- Aided in the loss prevention of the alcohol section.

Company Name, Location, Job Title, Jul 20XX – Sep 20XX.

- Action-verb, past tense, sentence describing accomplishments, ideally with numbers.
- Tech-industry terminology to describe your previous role.
